VEREENIGDE is the largest firm of patent and trademark attorneys in the Netherlands and a leading firm in Europe.

Commitment, involvement with our clients and professional pride are the key factors for VEREENIGDE's autonomous growth, which has been particularly rapid over the last decade.

Patents • Trademarks • Designs

To facilitate our growing practice and ambition, VEREENIGDE intends to open a Munich office by the end of 2007. For this new practice in Munich we are currently seeking

European Patent Attorneys

Physics / Electronics / Mechanics / Chemistry

and/or

German Patent Attorneys

Physics / Electronics / Mechanics / Chemistry

Successful candidates will be highly motivated self-starters/entrepreneurs who are willing to accept the challenge of setting up this new VEREENIGDE office and who will significantly contribute to its success.

This position requires excellent communicational skills, including fluency in at least English and German.

The activities will include typical private practice work, such as advising clients, drafting applications, prosecution, oppositions and litigation. Our clients include high-potential SMEs, research institutes and international corporations.

VEREENIGDE offers excellent remuneration and interesting career opportunities.
